

A 100% Australian owned company supplying scientific laboratories throughout Australia and overseas since 1987.

LEVO PIPETTE CONTROLLER

0.1 - 100mL - PRICED TO SELL!

- Precise Control - Drop by drop drainage
- Discharge Button - Add the last drop of liquid
- Compatible with glass or plastic serological pipettes (0.1 - 100mL)
- 3µm replaceable hydrophobic filter
- Fast Suction - Can draw 25mL of liquid in 4 seconds
- Five Colour Designs - Easy to distinguish between different applications

DUAB

AUSTRALIANS in SCIENCE

Prof Elizabeth H. Blackburn

FAAAS, FRS, FAAM

Prof Blackburn discovered the molecular nature of telomeres – the ends of eukaryotic chromosomes that serve as protective caps essential for preserving the genetic information – and the ribonucleoprotein enzyme, telomerase. For this work she was awarded the 2009 Nobel Prize in Physiology or Medicine, sharing it with colleagues Carol W. Freider and Jack W. Szostak.

NOW \$11,095.92

FC5718R REFRIGERATED CENTRIFUGE SPECIFICATIONS

Speed Range 200 - 18,000rpm
 Maximum Relative Centrifuge Force (x g) 23,542g
 Maximum Capacity (Rotor) 4 x 100mL
 Refrigeration Range -20°C to 40°C

DID YOU KNOW?

BRAND produce bottles and flasks with a safety coating to help contain liquid "splash" and the glass fragments in the event of a breakage.

SYNTHETIC COATING FOR BETTER PROTECTION

The PUR coating envelops the volumetric flasks like a protective skin. Compared to uncoated glass flasks the electrostatic charge is not increased. The light blue coating facilitates optical distinction. The maximum operating temperature at dry heat is 135°C (exposure time <30 minutes). Frequent autoclaving at 121°C reduces splintering protection. Cleaning up to maximum 95°C.

We've added an extra step to choosing your VELP hotplate stirrer. FOR WHEN SIZE DOES MATTER!

VELP have just released two new sizes to their range with the 100 x 100mm and the GIANT 260 x 260mm hotplate stirrers.

HOTPLATE SELECTION CRITERIA

- 1 Choose VELP
- 2 Choose required temperature

310°C 5 Series	370°C 6 Series	550°C 4 Series	550°C 7 Series	550°C 10 Series
Epoxy Painted Aluminium 135mm ROUND Plate	Epoxy Painted Aluminium 135mm ROUND Plate Auto Reverse Function	Ceramic 100 x 100mm SQUARE Plate	Ceramic 180 x 180mm SQUARE Plate	Ceramic 260 x 260mm SQUARE Plate

- 3 Choose the size that meets your requirements
- 4 Select the accessories to deliver temperature accuracy
 - Coarse - No controller
 - Fine - Pt100 probe (to 250 - 300°C)
 - Precise - VTF controller (to 250 - 300°C)
- 5 Select analogue or digital
- 6 For remote control via the web, choose a CONNECT model, with ermes communication

We also carry the range of VELP hotplate only and stirrer only models. Please enquire.

ermes is a secure cloud platform that enables you to access your VELP instrument and data, anytime and anywhere. The purchase of an enabled instrument includes 3 months free trial after which you have the option to purchase a one or three year subscription.

WHAT'S NEW IN WATER

We are pleased to announce the arrival of the SQ range of water purification systems.

WELCOME TO A MODULAR UNIVERSE.

Configure your own systems to determine which type of water you require.
Then adapt your setup to your evolving needs.

Milli-Q® SQ240 Purification System Kit

ROWE CODE CM3934

KIT REQUIRES THE FOLLOWING ACCESSORIES

SQPAK RO-Pure Water Cartridge

ROWE CODE CS7195

- Removes organics, ions, bacteria and particulates up to 99% from tap water feed
- Produce pure RO water up to 42 L/h
- Easy replacement when exhausted thanks to the Twist & Lock mechanism

SQPAK Quanta-Ultrapure Water Cartridge

ROWE CODE CS7196

- Removes ions from pure water
- Produce Ultrapure (Type 1) water at 18.2 MΩ·cm resistivity
- Easy replacement when exhausted thanks to the Twist & Lock mechanism

SQPAK Final Filter - Microfilter

ROWE CODE CS7197

- Removes bacteria and particulates from ultrapure water
- Easy replacement by simply twisting

Power Cord (only) for SQ 240 Purification System

ROWE CODE CP6465

SERIPETTOR PRO

The PRO offers a broader scope of application compared to the seripettor; for dispensing many acidic, alkaline and saline solutions, and solvents.

- Low-cost replaceable dispensing cartridge and valves
- Easy to operate
- Easy cleaning and maintenance
- Refills automatically
- Volume range from 0.2 to 25mL

VOLUME RANGE	ROWE CODE	PRICE
0.2 - 2mL	DS0172	\$585.50
1 - 10mL	DD0078	\$585.50
2.5 - 25mL	DD1111	\$760.75

Available NOW for immediate delivery!

SUPER ChillWrap ICE REPLACEMENT

An excellent refrigerant, removing the need for wet ice in a package

282 x 385mm

ROWE CODE HC0818

HOW DOES THERMASORB CHILLWRAP WORK?

As a refrigerant – the ChillWrap ice replacement sheet is hydrated then frozen to form a flexible sheet of ice, replacing the need for wet ice. As the ChillWrap thaws, the ice reverts to a gel form with no moisture coming out of the sheets. Over time the sheets will dehydrate and if clean, can be rehydrated and frozen again for further use.

HOW YOU BENEFIT

Thermasorb products can assist in controlling excess fluids and temperature in pre-packaged food and dairy products during distribution and retail display. Your product is too valuable to arrive in a poor condition or be displayed looking anything less than ideal. The end sale price and future business can also depend heavily on your product arriving and being seen in this ideal condition.

CARTONS OF 300

ROWE pH BUFFERS

Rowe Scientific introduced the unique twin neck bottle design for pH buffers to the Australian scientific community.

Features include:

- Separate sampling chamber which reduces contamination
- Small volumes can be discarded once used
- Overuse is reduced
- As used in European laboratories

ALL OUR BUFFERS ARE TRACEABLE TO NBS (NIST) INTERNATIONAL STANDARDS

In support of the Royal Flying Doctor Service of Australia, every purchase of Rowe pH buffers (CB3515, CB3115, CB2660) in the unique twin neck bottles, results in a \$2 per item donation. Scan the QR code to see our RFDS meter.

Haier Biomedical

Intelligent Protection of Life Science

Haier CO₂ Incubator

180°C Dry-heat Sterilization

Safe Cell Regeneration with IoT Technology

Uniform and Stable Temperature:

Temperature is precisely controlled within the fluctuation range of $\pm 0.1^{\circ}\text{C}$ to ensure the normal growth of cells throughout their life cycle.

Precise CO₂ Concentration:

A new type of IR sensor controls CO₂ concentration sensitively to keep the culture medium stable in a weak alkaline environment.

180°C Dry-heat Sterilization:

Easy and effective dry heat sterilisation at up to 180°C for microorganisms including bacteria, fungi and microplasma with strong resistance in just 12 hours.

IoT APP Available for Real Time Monitoring (optional):

The operation of the incubator can be monitored at anytime through mobile APP or computer terminal, also with alarm and push function.

CO₂ Incubator

ROWE CODE II0161

Ambient +3°C to 55°C, CO₂ 0-20%, humidity off or >90% RH.

IoT connectivity, touch screen. Direct heat ($\pm 0.1^{\circ}\text{C}$ accuracy, 4 minute recovery) with 180°C dry heat sterilization. 168L, includes 3 shelves.

Why not order online at your convenience 24/7 through the Rowe Scientific Web Store with its easy to use features?

Rowe Scientific Pty Ltd are a 100% Australian owned company which have been supplying laboratories across Australia since 1987 with scientific equipment, consumables and chemicals. You have the option of online ordering at your convenience 24 /7 through a secure login account we create for you. Once you have a Rowe Scientific Pty Ltd account, simply go to www.rowe.com.au log-in and then you can:

- Order online with your secure login.
- See special pricing and availability.
- Order when it's convenient for you 24 /7.
- See your online order history and back orders.
- Shop from over 117,000 product lines and leading brands.

To obtain a Rowe Scientific login, go to www.rowe.com.au and click the register tab then follow the prompts.

To view our webstore as a guest go to **www.rowe.com.au** and explore the products tab.

To see our current special offers on our webstore, go to www.rowe.com.au and explore the specials tab.

Or to find out more about us including scholarships and news events, go to www.rowe.com.au and explore the news tab.

For all the laboratory supply needs that you envision.

Online, by phone or face to face, we give you the choice.
